

The Elegant Carriage 1

Across

4. A name now affiliated with harness racing, this vehicle was originally built very high in the air.
6. A member of the Coaching Club designed this gig.
9. This gig is hung on four springs, two of which were bolted between the shafts and axle.

Down

1. It was considered very fashionable to have a very small tiger on the back of this vehicle.
2. The most elegant little gig with no boot.
3. Visually you should appear to be whisking along in this vehicle.
5. Two-wheeled vehicle pulled by two horses.
7. This spring type eliminated the need for perches.
8. This gig was perhaps named after a well-known dancer.
